

## **ERP, KAMP Suspended**

Feb. 4, 2010 -- The state's Emergency Repair Program (ERP) and Kansas Accessibility Modification Program (KAMP) both have been suspended for the remainder of this fiscal year. The Kansas Housing Resources Corporation (KHRC) made the decision to suspend the two programs in response to a mandate from the legislature and governor to transfer \$2 million from its funding to the state's general fund to make up for state budget shortfalls.

KHRC will honor any program commitments that are under specific contract through Feb. 4, 2010, and will also honor contracts already executed with contractors or other parties providing services through Feb. 4.

For more information, please contact KHRC at 785-296-5865.

For details on the programs, please go to "Housing/Home Services" at the home page's navigation bar and click on either program.
